2011
Reappraisal of the
Town of Sharon

Town of Sharon Listers' Office
PO Box 250 Sharon, VT 05065
phone: 802-763-8268

In this pamphlet are the new 2011 assessed values for all real property in the Town of Sharon, together with the 2010 assessed values. You will also find a list of all real estate sales in the Town of Sharon for the past three years (both house sales and land only sales) and a table showing the tax rate on the 2010 Tax Bill compared with an anticipated tax rate for the 2011 Tax Bills. These assessments reflect, to the best of the Lister's ability, the real estate market in Sharon.

Vermont Law decrees that the Listers of each town look at only valid real estate sales from the last three years to determine the "fair market value" of all property; we are not allowed to look forward to where the market may be going. The last town wide reappraisal was in 2003. The real estate market has changed radically since then and the last three years of real estate sales have continued that trend. Property sales in Sharon have not shown the decline that property in other parts of the country have seen. The Listers strive for fairness in this difficult to understand, and occasionally unfair "fair market."

As a property owner you have the right to grieve the new value of your parcel if you feel it is not correct, does not reflect the current fair market value of your property, or is not assessed equitably with other similar properties. To determine whether you should appeal your new assessment, you can compare your assessment to the price of another property in town that is similar to yours and has recently sold (see the list in the back of this booklet). If you have recently had a private appraisal, you can compare your assessment with that appraisal.

There are three sound approaches to winning an appeal of your assessment:

1. Compare your property appraisal to other comparable properties in town. Be aware that similar houses can have very different values if the acreage and outbuildings are different.
2. The cost of replacing the buildings on the property would be less than it's assessed value. You must produce documentation from contractors to show that the listed cost value is too high.
3. A mistake has been made on your card. If the measurements of the house are in error, the roof or floor covering is incorrect or if the number of bathrooms or kitchens is inaccurate, the Listers will make these corrections.

We encourage all owners to contact the Listers for an explanation of how we determined your assessment, and to confirm the accuracy of our data. If any errors have been made, the Listers would appreciate the opportunity to make corrections. We are available in the Town Office to answer questions and to make grievance hearing appointments.

We are grateful for the generous cooperation of all property owners and we want to thank everyone who graciously allowed us into their homes. We apologize for the intrusion and sincerely appreciate the kind welcome you gave us.

Galen Mudgett, Helen Barrett & Ken Wright, Listers for the Town of Sharon

The following table shows the tax rates on the 2010 Tax Bills compared with an anticipated tax rate for the 2011 Tax Bills. The table also shows what the tax rate would have been without a reappraisal. The 2011 voted municipal budget decreased from 2010. The education spending adjustment increased from 2010. The 2011 Education tax rate is assuming the Common Level of Appraisal is reset to 1.0.

TAX RATE COMPARISONS

	ACTUAL 2010	WITHOUT REAPPRAISAL 2011	ANTICIPATED 2011
MUNICIPAL:	.8232	.7670	.5777
VETERANS OFF SET:	.0016	.0021	.0016
HOMESTEAD EDUCATION:	1.9048	2.0662	1.4110
NONRESIDENTIAL EDUCATION:	1.9865	1.9915	1.3600
TOTAL HOMESTEAD TAX RATE:	2.7296	2.8353	1.9903
TOTAL NONRESIDENTIAL TAX RATE:	2.8113	2.7606	1.9393

For example: A homestead property assessed in 2010 at \$175,550 paid \$4,791.81 in taxes. Without a reappraisal this property in 2011 would probably pay \$4,977.37. If this property's assessment increased to \$248,500, the anticipated 2011 tax would be \$4,945.90
